Executive summary

Program Name	Most Visited Lesson	Least Visited Lesson	Most Popular Topics Among Grads
Data Science	Classification	Case Statements	SQL
Front End	HTML-CSS	Favicon.ico	Content Page
Full Stack Java	Javascript-i	Java Scri	Javascript-i
Full Stack PHP	Index.HTML	CSS	Javascript

Frequency of Lesson Views Across Cohorts :
- For Web Dev cohorts with the top 5 most log observations:
  - Fortuna accessed the java-iii lesson more frequently than the other 4 cohorts investigated.
  - Ceres and Jupiter accessed html-css more often than Jupiter, Fortuna, and Voyageur

- For the 5 Data Science cohorts with log observations:
  - Darden viewed the classification/overview lesson the most out of all 5 cohorts by a significant margin. Dardin had 1109 instances of this lesson, which 664 more instances than the next highest cohort, Easley

Access Notes:
- It seems access was not completely shut off before 2019 but not after 2019.
  - There are instances of web development students accessing data science curriculum even after graduation.
  - For the Data Science classes access to web development content was shut down after 2019.
